Professional Summary

Detail-oriented ERP Team Leader with expertise in Excel-based data validation, cleaning, and standardization. Experienced in collaborating with cross-functional teams in pharma to improve data quality and reporting accuracy. Strong foundation in science with additional hands-on experience in Python, SQL, and Power BI through analytics projects, seeking to transition into a Data Analyst role.

Skills

- Power BI
- SQL (MySQL, PostgreSQL)
  Python (Pandas, NumPy, Scikit-learn, Matplotlib)
- Excel (VLOOKUP, HLOOKUP Conditional Formatting, Pivot Tables)
- Github

Work Experience

ERP TEAM LEADER – SGPharma Pvt. Ltd. – Navi Mumbai Jan 2025 – Jan 2026

- Facilitated ERP migration by guiding six departments through vendor-provided master datasets, conducting meetings and training sessions to ensure correct data preparation.
- Applied Excel techniques such as conditional formatting and data validation to clean, standardize, and validate submissions, ensuring accuracy, consistency, and completeness.
- Iteratively reviewed data with teams, provided feedback for corrections, and finalized datasets with senior stakeholder approval before uploads.
- Created task-specific masters tailored to departmental requirements as ERP adoption progressed, leading teams through the same validation and approval process.
- Coordinated with the ERP vendor for additional training, issue resolution, and process improvements, while providing post-go-live support and query handling.

JUNIOR PROGRAMMER – Chintan Systems Pvt. Ltd. – Mumbai Nov 2021 - May 2022
